

Listing of Claims:

Claims 1-8 (canceled)

9. (currently amended)

A method of inhibiting malignant cell migration and metastasis in a host having a malignancy by administration of a migration-inhibiting effective amount of at least one antibody ~~or antigen-binding fragment~~ which is chosen to bind to a chemokine known to be over-expressed in the particular type of malignant cell.

10. (currently amended)

The method of claim ~~1~~ 9 wherein the host is a human.

11. (currently amended)

The method of claim ~~1~~ 9 wherein the antibody is a human, humanized or chimeric antibody.

Claims 12-14 (canceled)

15. (new)

The method of claim 9 wherein the migration-inhibiting antibodies are at least one of anti-CXCL13 antibodies and anti-CCL 25 antibodies.

16. (new)

The method of claim 15 wherein the antibodies are anti-CXCL13 antibodies.

17. (new)

The method of claim 15 wherein the antibodies are anti-CCL25 antibodies.

18. (new)

The method of claim 9 wherein the antibodies are administered in microspheres.

It is respectfully requested that the new claims claiming the elected invention be entered into the file.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Glenna Hendricks". The signature is fluid and cursive, with a large initial "G" and a long, sweeping underline.

Glenna Hendricks, Reg. No. 32,535
